

member to member discount scheme

The following offer is an exclusive offer provided only to Inspire members and is not available to anyone else.

Please contact supplier before purchase (not Inspire).

Cloud Technology 4 Business (CT4)

www.ct4.com

CT4 are experts in delivering IT solutions through the use of cloud technology. We are highly skilled in providing Infrastructure-as-a-Service (IaaS), Desktop-as-a-Service (DaaS) and Disaster Recovery-as-a-Service (DRaaS) to a variety of different business sectors.

Every organisation has a unique IT requirement and it is our business to drill down into the detail and extract the right solution. You may know precisely what direction you want to take or you may require guidance and expertise to make an informed choice. In both cases, CT4 will approach the task using a simple and consultative methodology in order to set you on the right path. We are approached by individuals who understand that an area of their IT operations is not performing in an optimal way (either in cost or functionality); in many ways half the battle has now been won because a need for change has been identified. Why not give us a call and learn how you can take your business into the cloud.

We are offering all Inspire members a 10% discount on all cloud hosting services for 18 months.
